**Arts & Crafts**

**Frank Lloyd Wright**

**Frank Lloyd Wright** - This palette contains historical colors chosen in great detail to be accurate and also beautiful. Let these rich and authentic colors help simplify your surroundings.

**Less is More**

**Less is More** - This authentic color way is soft and subtle, but it has an earthy edge that is reminiscent of a simpler time. Colors of worn brass, blue green, and adobe are right on the money.

Arts & Crafts style is as popular today as it was in its heyday in the mid-nineteenth Century. It is much more than just a style of decoration - born from a desire to use honest craftsmanship, beautiful materials and integrity in design as a means for social reform. The roots of this popular movement lie in the aesthetic approach to interior design. The Arts & Crafts Movement is a blend of a broad range of tastes, styles and origins, which is why this timeless look has endured over the years.

**Stickley & Stone**

**Stickley & Stone** - This authentic color vignette boasts bold and rich colors of ebony, oregano, and warm ginger. The palette is accented by fabulous Arts & Crafts heavy linen fabrics and cottons.
