Description

NDG B1060

A stunning addition to our Barna Log House Collection, The Cheyenne will have you longing for way back when, with light wood siding paired with a stone skirt and a classic front porch. Step inside to find a wonderful open floor plan incorporating the Living Room, Kitchen, and Dining into one large space. This space lies below a breathtaking vaulted ceiling lined up with the stone fireplace, which is flanked by windows looking out to the right of the property. The Living Room offers tons of space to gather, while the Kitchen allows for a wide range of counter and cabinet space. The Dining area features entry to the Screened Porch that spans the entire width of the home, perfect for spending time with the whole family! Moving to the left side of The Cheyenne, you will find yourself in a brief hallway with a full bath and laundry room on either side. At the rear,

you can enter your Master Suite, where the spacious master bedroom also privately accesses the Screened Porch. A sizeable step-in closet will hold all your wardrobe essentials, and a small window looking out to the Screened Porch is a great addition to the Master Bath. Down the hall, Bedroom 2 boasts a modest step-in closet and side- and front-facing windows, as well as more space than Bedroom 3. How would you customize this amazing house plan?

NOTE: Barna plans are intended for log exterior walls. Converting these to 2X6 exterior walls requires modification and will be subject to additional modification cost. Contact one of our home plan specialists today to discuss modification requirements by emailing
