Description

SMN 1056

From award-winning designer Seth M. Nelson comes a stunning addition to our European House Collection. The Heritage is a contemporary modern dream, with a unique arched entry punctuated by a swooping angled roofline for a design like no other. Inside you are greeted by the open floor layout connecting the dining room, great room, and kitchen. The dining room enlists a bench seat to conserve space, and the kitchen features a long center island with a bar top. An outdoor living space offers a fantastic space for entertaining outside. The master suite of The Heritage occupies the left side of the home, and a coffered ceiling makes the bedroom extra grand. His and her closets are also featured, and the master bath not only includes a tile shower and claw foot tub,

but also access to a dog room. This dog room also leads outside and is perfect for enthusiastic dog parents. Bedrooms 2 and 3 are located on the other side, and the shared bathroom contains a claw foot tub. Upstairs holds a bonus room and an additional bedroom and bath, and a 2-car garage also consists of a safe room. How would you customize this amazing house plan?
