Description

From the street this duplex appears to be two large homes sitting closely together. A large covered porch with ten-inch columns and dormers enhance this traditional design. The great room has a large fireplace and gently accesses the kitchen for ease in entertaining. A family oriented kitchen has a counter with bar seating and is totally open to the breakfast room, which leads to a grilling porch. For privacy, the Master suite is on the main floor and has double vanities, a separate shower and his and her walk-in closets surrounding a luxurious whirlpool tub. Upstairs you'll find a full bathroom and two bedrooms each with built-in desks for quiet study time.
