Description

MEN 5128

From award-winning designer Michael E. Nelson comes a stunning addition to our Craftsman Bungalow House Collection. Sapphire Place pairs a beautiful mix of stone and board & batten siding with timber accents to create the perfect street appeal. 8" columns separate the Foyer from the Dining Room, and the open floor plan allows both spaces to flow seamlessly into the Great Room and Kitchen. A vaulted ceiling over the Great Room is sure to take your breath away, and an eat-at island, attached Breakfast Room, and spacious Grilling Porch offer plenty of additional gathering spaces. Behind the Kitchen, you will find the left wing of Sapphire Place entirely devoted to the Master Suite. The master bedroom is massive and boasts a beautiful boxed ceiling, as well as large windows looking out to the rear of the home. The Master Bath features an L-shaped dual

sink vanity, corner shower with a seat, 5-foot tub, and huge walk-in closet. A convenient half bath is also nearby. On the right side of the home, Bedroom 2 is found toward the rear, and a private vanity room with a walk-in closet leads into the shared Jack and Jill bath with Bedroom 3, which also enjoys a private vanity room. Upstairs is an optional Bonus Room with a full bath and closet, making it the perfect guest room or game room. How would you customize this amazing house plan?
