Description

NDG 1401

A stunning addition to our Stone-And-Brick House Collection, Eudocia showcases a combination of stone and painted brick mixed with copper architectural features that will make this home the talk of the town. An arched entrance with a deep, columned front porch provides an elegant entry, while carriage-style garage doors and shutters add a bit of "old world" warmth. Inside, the foyer has a 12-foot ceiling for a grand entry into the open floor plan, where timber beams accentuate the ceiling to join the large Great Room with the Kitchen/Breakfast Room area. Here, you will find a cozy fireplace and media center, as well as double islands, encouraging quality time spent with family. After delicious meals enjoyed in the formal Dining Room, quiet time can be spent in the Sunroom or Screened Porch both viewing a large sun deck.

At the end of the day, retreat to your relaxing Master Suite, tucked away on the far left of the Eudocia home plan. The master bedroom is spacious with a beautiful boxed ceiling and even features private access to the Screened Porch. Heading toward the Master Bath, you will find his and her closets to your right and left, and ahead the corner whirlpool tub, glass block shower, and his and her vanities with a makeup station are nothing short of luxury! Enjoy a view of the cozy covered side porch from here as well. On the right side of Eudocia are Bedrooms 2,3, and 4, each housing sizable closets. Bedroom 4 is the most spacious, with private access to both the sunroom and hall bath, and Bedroom 2 may also be used as a study, if desired. An upstairs Bonus Room is available to suit any additional needs, while the basement is the perfect place to gather with friends and family! Features of this space include a large Home Theater, Game Area, a second Kitchen with an eat-at bar, and an optional fifth bedroom. How would you customize this amazing house plan?

Sunroom is a 192 SQ. FT and included in the Heat/Cooled Total
