### Description

This incredible European design has an abundance to offer, inside and out. A metal shed roof balances the timber vaulted ceiling entrance, detailed with timber columns with stone bases. The rear-loading 3-car garage connects by a porte cochere at a 45 degree angle. The foyer, open to the theater balcony above, is flanked by an office on the left and the dining room on the right. Past the grand hall lies the enormous great room, also open to the balcony above, it boasts a fireplace and flows into the wonderful kitchen and breakfast room. The kitchen features a curved 6-person eat-at island bar, a large prep island, and a huge walk-in pantry. Near the laundry room is a convenient kid's nook, a butler's pantry, and a cozy office. The spectacular Master Suite has plenty of space, including a sitting area with a fireplace and access to a rear covered porch. The master bath has double vanities, a huge shower with 2 rain heads, an enclosed steam shower, and finally 2 large walk-in closets. A huge covered porch lines in the rear of the house. Upstairs you'll find 5 more bedrooms, each with walk-in closets, 3 with their own full baths and 2 with a

shared bath. A long hallway connects over the porte cochere to a perfect home theater, half bath, and lots of storage.
