Description

MEN 5293

From award-winning designer Michael E. Nelson comes a stunning addition to our Traditional House Collection. Driftwood Cottage offers so much curb appeal, a light green exterior pairing well with wood shutters. Inside you will find a functional floor plan, with the cozy great room sharing a space with the kitchen and breakfast nook. A vaulted ceiling and gas fireplace are stunning additions to this space, and an eat-at counter makes family meals easy. The master suite sits below a 9-foot boxed ceiling, and bedrooms 2 and 3 lie across the hall, sharing the hallway bathroom. A large carport adds convenience to this home, and a storage closet allows for extra space that the traditional garage would offer. How would you customize this amazing house plan?
