Description

MEN 5296

From award winning home designer Michael E. Nelson comes Autumn Place. Inspired by European Design and a love for luxurious simplicity, this stunning new addition to our MEN collection comes in at just over 5000 sq ft. A beautiful white board & batten exterior trimmed with a subtle stone skirt offers modern curb appeal for this unique design. Large picture windows frame the beautiful double door entrance with a striking black and white contrast. Offering tons of entraining potential, Autumn Place is an open floor plan concept that offers 3 bedrooms, a separate study, an optional game room, home theater, and tons of storage potential.

Open Floor Design

Heading on in through the covered front porch, you will be greeted by a stunning foyer that opens up to the private study, the dining room, and the great room. To the left, you'll find the staircase leading to the lower level just before reaching the great room opening. A stunning fireplace is framed by built in-shelving on each side, and a large eat at kitchen island opens up to the great room and breakfast room. A closet style pantry adds tons of storage potential to the kitchen as well.

Main Level Master Suite

On the east wing of Autumn Place, you'll find the large, luxurious style master suite, featuring another fireplace and an 11' boxed ceiling with tons of natural light to illuminate the room. The master bathroom offers two separate vanities for plenty of room to get ready in the morning. A free-standing tub and a large walk-in glass shower add to the luxurious feel of this European Design. A large walk-in closet also opens up into the laundry room for easy access on laundry day.
