Description

MEN 5082

From award-winning designer Michael E. Nelson comes the newest addition to our European House Collection. There is plenty of space for the whole family in this luxury French Country house plan. The open floor plan design creates the perfect gathering area for friends and family where conversation and laughter can flow uninterrupted from the kitchen and breakfast room into the great room all of which is accented by beautiful 10' ceilings and fine timber beams. On either side of the foyer you will find dual purpose rooms that can be used whichever way best fits your family. On the left is the formal dining room that can be used as a study, in case formal dining is not your style. On the right is the beautiful office or study with a large rounded wall covered in windows. Three large rooms are located behind the great room, each boasting an en-suite bathroom and

walk-in closet. Tucked away on the other side of the home is the spacious master suite with a huge walk-in closet and direct access to the outdoor living porch. Upstairs you'll find a game room and guest quarters with a wet bar, allowing your visitors their own private space. Attached to the home but separated by one of the garages is the in-laws suite complete with a kitchen, den, spacious bedroom, and bathroom with a stacked washer and dryer.
