Description

MEN 5326

From award-winning designer Michael E. Nelson comes the newest addition to our Cottage House Collection. With a simple white exterior accentuated by craftsman elements of stone and wood framing, Summer Place Cottage has all the curb appeal you could ask for. An entryway tucked below a stunning vaulted ceiling makes for the perfect place to greet guests. A large eat-at kitchen island joins with the great room and dining room, allowing for the best way to entertain guests. French doors open out to the grilling porch from the great room, which also holds a relaxing fireplace. The master suite, located on the left side of Summer Place Cottage, enjoys a peaceful view of the backyard through multi-pane windows, as well as a walk-in closet accessible from the

bathroom and laundry room. The master bathroom is fully equipped with dual vanities and a walk-in shower. If you like baths, no worries! This house plan gives you the option to complete your master bath by adding a free-standing tub. Bedrooms 2 and 3 are located on the right side of Summer Place, and a shared bathroom lies between them. To top it all off, a two-car garage offers you all the storage space for your heart's desire. How would you customize this amazing house plan?
