Description

MEN 5328

From award-winning designer Michael E. Nelson comes the newest addition to our Cottage House Collection. Spring Creek Cottage is a functional floor plan that first welcomes you with its tiered gables and classic white framing. A two-car garage juts out from the rest of the house, granting some privacy to the cozy front porch. The front door takes you straight to the great room, and ahead you'll find the kitchen, separated by an island and dining table. From the kitchen, you can step out onto the grilling porch, perfect for casual summer meals. Adjoined to the kitchen is the master suite of Spring Creek Cottage. Here you will enjoy a delightful view of the backyard, as well as a stream of natural light, both contributing to the peaceful ambience of the suite. A functional walk-in closet adds so much to this space, while the master bathroom gives you the luxuries of

dual vanities and a walk-in shower. Located just before the master, bedrooms 2 and 3 share a hallway and a bathroom. Dual vanities make sharing this bathroom convenient and easy. How would you customize this amazing house plan?
