Description

MEN 5315

From award-winning designer Michael E. Nelson comes the newest addition to our Craftsman House Collection. Calamet Place utilizes an open floor plan perfect for your family, and its stunning curb appeal gives outsiders just a glimpse into this home's grandeur. A white stone exterior pairs well with its classic black shutters, and the pillared front porch seems to welcome you home. Inside you will find breathtaking vaulted ceilings towering over the great room and kitchen and a charming breakfast nook beside a multi-paned window. The kitchen is a dream, equipped with a walk-in pantry and double kitchen islands. To the right of Calamet Place, you will find a luxurious master suite with a massive walk-in closet accessed from the master bath, which enjoys a walk-in shower, a free-standing tub, and dual vanities. Bedroom 2 allows some flexibility

in its use and employs a walk-in closet and a bathroom, accessed from the hall. The opposite side holds a second master suite. Its master bath includes a walk-in shower and opens into the walk-in closet. Down the hall is bedroom 3, which enjoys its own full bathroom, and a nook that is sure to keep your kids busy. This plan is also equipped with two garages located at the left side, where they hold two rooms for storage space. How would you customize this amazing house plan?
