Description

MEN 5071

From award-winning designer Michael E. Nelson comes a stunning addition to our Traditional House Collection. A charming front porch welcomes you into Augusta Place, with thin columns and a brick exterior marking a sense of elegance as you walk inside. Upon entering the Foyer, you will find a home Office/Media Room to your right, enclosed by charming barn doors. Family and friends will love to gather together in the large Great Room, which lies below a breathtaking vaulted ceiling accentuated by timber beams. A cozy fireplace flanked by built-ins gives this space a warm atmosphere, and the open floor plan allows the festivities to join into the Kitchen and Dining space. An eat-at center island features a sink and dishwasher facing the Great Room, so you will never be too far away from the family. During fair weather, bring the party outside to the

covered Grilling Porch.

The spacious Master Suite occupies the left side of the home and gives you all the space, privacy, and amenities you could imagine. The master bedroom lies below a beautiful boxed ceiling, and 4 evenly spaced windows will give you gentle natural lighting in the mornings. The Master Bath is not to be forgotten, housing luxuries of a dual sink vanity, free-standing tub, large shower with two seats, and a huge walk-in closet with optional drawers in the center. Two spacious bedrooms are located on the right side of the home, with a hall bath located in between. Down the hall, you will also find a convenient half bath for guests, and the Laundry Room is located nearby entry to the 2-car garage, which features a spacious storage closet. Upstairs you'll find a great Bonus Room and full bath above the garage, perfect for an extra bedroom or game room. How would you customize this amazing home plan?
