Description

MEN 5334

From award-winning designer Michael E. Nelson comes the newest addition to our Riverbend House Collection. Stone Creek Falls will first catch your eye with a classic white exterior, but the real gem is a breathtaking stone wall at the rear which protects the home from flooding. Inside you will find a spacious great room that opens into a kitchen characterized by a counter which L-shapes into a large eat-at island. The kitchen also shares a space with the dining room, from which you can step out onto the balcony and enjoy a serene view of the river. To the left of Stone Creek Falls is a luxurious master suite, equipped with a walk-in closet and a full master bath, which includes a walk-in shower and dual vanities. To the right, there is a half bath, as well as a two-car garage. Upstairs you will find bedrooms 2 and 3, along with a shared bathroom and a

sleeping loft. This plan also offers the addition of an optional basement, according to your needs. How would you customize this amazing house plan?
