From award winning home designer Michael E. Nelson comes a brand new addition to our Farmhouse Collection. Open Range offers a spacious open floor plan with plenty of room for your growing family. With a large great room and open kitchen/dining concept making for a perfect entertaining space, this home plan is sure to wow your family and guests, and bedrooms upstairs and downstairs offer plenty of room for new family additions, visiting guests, etc. Luxury is an understatement for the master suite of Open Range. The bedroom is completed by a breathtaking vaulted ceiling, and barn doors separate it from the master bath. Included in this space are not only a walk-in shower and free-standing tub, but also a coffee bar, stacked washer and dryer, and a large walk-in closet featuring center drawers. Upstairs you will find bedrooms 3 and 4, each with

vaulted ceilings and walk-in closets, a Jack and Jill bathroom between them. A second laundry room is also featured here, and tons of attic storage space can be found above the 3-car garage. How would you customize this amazing house plan?
