Description

MEN 5379

From award-winning designer Michael E. Nelson comes the newest addition to our Craftsman Bungalow House Collection. Timberstone Place is a luxury open house plan that will more than satisfy your needs. A 4-car garage offers all the space you could imagine, and craftsman elements of stone and wood framing pair well with a classic white exterior to create an attractive curb appeal. Inside, a massive great room featuring a vaulted ceiling joins with a luxury kitchen, complete with a center island, an eat-at island, and a walk-in pantry. From here you can access the outdoor living space, which sits on a wood deck overlooking the backyard. On the right side of Timberstone Place is the master suite, which brags of a vaulted ceiling and a luxury master bath,

fully equipped with double vanities, a free-standing tub, a walk-in shower, and access to a spacious walk-in closet. Bedrooms 2 and 3 are located opposite each other, each enjoying walk-in closets and full private bathrooms. The left side of the home holds a public half bath and a huge laundry room, as well as a cozy kids' nook. Down the stairs you will find a walk-out basement, featuring a second home office, a covered porch, a full public bathroom, a safe room, and a large storage space.
