Description

MEN 5384

From award-winning designer Michael E. Nelson comes the newest addition to our Rustic House Plan Collection. With all the charms that come with a cozy cabin, Whispering Falls offers a great open layout with a wrap-around porch offering tons of outdoor living space. An open balcony upstairs gives the great room a tall, vaulted ceiling that will take your breath away. A large eat-at bar top gives a great opportunity to entertain while leaving plenty of room for your growing family as well. A sunroom at the rear of the house serves as a beautiful connection for indoor and outdoor living. The master suite of Whispering Falls occupies the left side of the main level, with a beautiful vaulted ceiling adding to its luxury. The master bath completes the luxury, with a free-standing tub, walk-in shower, and access to a spacious walk-in closet. The other two bedrooms

can be found upstairs with a bathroom to share. Detached from the main house, an optional garage can serve as great auto storage, or a great shop building for future projects. An optional breezeway also offers cover between the two structures and will add to curb appeal immensely. How would you customize this amazing house plan?
