Description

MEN 5386

From award-winning designer Michael E. Nelson comes the newest addition to our Rustic House Collection. A wood exterior, a wrap-around deck, and lofty gable dormers give Saddler Falls a curb appeal that seems to send a feeling of serenity over onlookers. This feeling does not stop here, however. Inside is a spacious great room open to a cozy kitchen and the wrap-around deck. On the other side of the stairs is a spacious master suite, complete with a walk-in closet and full master bath. This side of Saddler Falls also enjoys a half bath combined with the laundry room, further optimizing your space. Upstairs holds bedrooms 2 and 3, which share a full bathroom in the hallway. In the basement you will find a rec room, as well as a storage closet, perfect for a family game night. You can also access a large garage from this level, which opens onto a large concrete

slab. How would you customize this amazing house plan?
