Description

MEN 5369

From award-winning designer Michael E. Nelson comes the newest addition to our Cottage House Collection. New Haven Cottage implements a farmhouse look into its curb appeal, with a metal roof and wrap-around porch. Inside you will find a stunning open floor plan, whether you enter through the front door or the master suite door beside it. A massive great room shares a space with the dining area and kitchen, which features an angled eat-at island and a walk-in pantry down the hall. The master suite is separated from everything else only by charming barn doors. A large walk-in closet and a luxury master bath, complete with a free-standing tub, a walk-in shower, and dual vanities, are featured here. Upstairs holds bedrooms 2 and 3, which share a bathroom in the hallway. A balcony overlooking the great room below is a stunning addition to New Haven Cottage.

A two-car garage at the rear will satisfy all your storage needs, and the covered porch offers a pleasant alternative for gathering. How would you customize this amazing house plan?
