Description

MEN 5393

From award-winning designer Michael E. Nelson comes the newest addition to our Farmhouse House Collection. Clancy Farms will prove to be the perfect home plan to suit the needs of your whole family. With beams accentuating a breathtaking vaulted ceiling, a great room open to the kitchen and dining area makes for an excellent place to gather. A large eat-at island adds to this, and down the hall you will find a cozy kids' nook, as well as a walk-in pantry. The master suite, equipped with a vaulted ceiling and access to the patio and grilling porch outside. A glass walk-in shower, a free-standing tub, and double vanities make for a luxury master bath, and a spacious walk-in closet conveniently adjoins to the laundry room. The opposite side of Clancy Farms holds bedrooms 2, 3, and 4, which share a full bathroom down the hall. One of the 2-car garages

separates the in-law suite complete with its own living area and kitchen, allowing you to stay close to your extended family while also having your own space. The upstairs offers a ton of attic storage space, as well as a large bonus room with a half bath. How would you customize this amazing house plan?

NOTE: In Law Suite heated and cooled sq. ft is 591
