Description

MEN 5391

From award-winning designer Michael E. Nelson comes the newest addition to our Riverbend House Collection. Crosscreek Falls is a cozy home plan, enlisting a classic white exterior with stone accents to create tons of curb appeal. A great room open to above welcomes you inside, and stairs leading to the upper level separate it from the kitchen, where the counter L-shapes into an eat-at bar across from a cozy dining area. Towards the rear lies a half bath, along with the master suite, complete with a walk-in closet and full master bath featuring luxuries of a dual vanity, a walk-in shower, and a free-standing tub. The upper level of Crosscreek Falls holds bedroom 2 and offers the option of a third bedroom, which would share a full bathroom accessible from the hall. A stunning loft with a vaulted ceiling overlooks the great room from a balcony. Outdoor living

is also a must-have for this home, as it enjoys a spacious wrap-around porch at both the front and rear. How would you customize this amazing house plan?
