Description

MEN 5373

From award-winning designer Michael E. Nelson comes the newest addition to our Craftsman House Collection. Autumn Falls is a functional house plan that will suit the needs of your family while offering tons of curb appeal. A vaulted ceiling and fireplace in the great room open to the dining room, kitchen, and breakfast room allows for a maximization of space with a hint of luxury at the same time. An eat-at counter and center island highlights this, and a half bath down the hall adds some convenience for your gatherings. The master suite of Autumn Falls also offers a functional luxury, characterized by a vaulted ceiling and barn doors enclosing a walk-in closet, and the master bath is fully equipped with a walk-in shower, dual vanities, and a bathtub. Upstairs not only holds two bedrooms and a bathroom, but also a massive bonus room, available to serve any

purpose you need. The 2-car garage offers an extra storage space, as well as access to a mudroom, and the cozy grilling porch offers a great place to enjoy the outdoors. How would you customize this amazing house plan?
