Description

MEN 5398

From award-winning designer Michael E. Nelson comes the newest addition to our Cottage House Collection. Alpine Cottage first greets you with a grand porte cochere and light wood framing which contrast well with the dark exterior. Inside is a stunning great room with a vaulted ceiling open to a kitchen with a large center island and tons of counterspace. The master suite enjoys access to a relaxing outdoor living space, as well as a master bath with dual vanities. Bedroom 2 is located down the hall, along with a full bathroom. The lower level of Alpine Cottage includes a massive living room with a sink and counterspace, an additional laundry room, and a flex area, allowing you to customize this room however you desire. Bedroom 3 and a public bathroom, which contains access to a second outdoor living space, are also found here. The safe room accounts for 102 of

the total square feet of this home. How would you customize this amazing house plan?
