Description

MEN 5365

From award-winning designer Michael E. Nelson comes the newest addition to our European House Collection. Woodland Winds uses stone, brick, and stucco to create a curb appeal that is sure to give guests a warm welcome. Through a cozy covered entry, past a spacious formal dining room, you will find a massive great room with a breathtaking vaulted ceiling accentuated by timber beams. Open to this space is a luxury kitchen, complete with an eat-at island, a walk-in pantry, and loads of counterspace. The master suite, located on the left side of Woodland Winds, features a large walk-in closet and a stunning boxed ceiling. The master bath lives up to its name, fully equipped with dual vanities, a free-standing tub, and a walk-in tile shower. Bedrooms 2 and 3 are also found here, and both share a bathroom with dual vanities in the hall. The guest room,

complete with a walk-in closet, is on the opposite side, and a full bathroom lies just outside.

Upstairs you will find a large bonus room for whatever purpose you need. A covered porch allows for some rest and relaxation outside, and you will also find a safe room in the 3-car garage. How would you customize this amazing house plan?
