Description

MEN 5361

From award-winning designer Michael E. Nelson comes the newest addition to our European House Collection. Aveon Place is a stunning open floor plan with tons of curb appeal to catch the eye of your guests. A timeless white exterior pairs perfectly with the stone accents and classic shutters. A porte-cochere adds a great alternative to the traditional garage and adds so much depth to the European House Plan. Inside you'll find breathtaking vaulted ceilings adding so much value to the open floor plan. A large eat-at kitchen island separates both the open dining room and breakfast nook. On the right side of Aveon Place you'll find bedrooms 2 and 3 sharing a Jack and Jill bathroom fully equipped with walk-in closets. On the opposite side of Aveon Place, you'll discover the luxurious master suite also featuring vaulted ceilings to coincide with the great room.

A free standing tub, walk-in shower, and dual vanities make for the perfect master bath, but the real gem is the walk-in closet that also connects to the laundry room. Upstairs, you'll find even more space in the future, optional bonus space. This space can be used as a multi-purpose room or another bedroom. How would you customize this amazing house plan?
