Description

MEN 5407

From award-winning designer Michael E. Nelson comes the newest addition to our European House Collection. Ashland Place II pairs a classic white exterior with French classic elements to create stunning curb appeal. A 2-car garage attached to a breezeway offers loads of space, and a porte-cochere serves as a luxury carport. Inside you will find the stunning great room below a vaulted ceiling with timber beams. The dining area separates the kitchen from this space and sits before a cozy fireplace. The kitchen is a luxury itself, enjoying a large eat-at island, a farm sink, a pot filler, and a walk-in closet. The master suite occupies the left side of Ashland Place II. His and her walk-in closets separate the room from a spacious master bath, where you will enjoy a free-standing tub, a walk-in shower, and dual vanities. The right side holds a full bathroom with a walk-

in shower and a guest room, which may also be utilized as a study. Upstairs are bedrooms 3 and 4, along with a loft, a full bathroom, and additional spaces with vaulted ceilings throughout. A bonus room and full bathroom are also featured above the garage, and an outdoor kitchen on a large grilling porch makes for the perfect outdoor living space. How would you customize this amazing house plan?
