Description

MEN 5417

From award-winning designer Michael E. Nelson comes the newest addition to our Farmhouse House Collection. Cross Creek Farms showcases wonderful curb appeal characterized by a metal exterior and stone base columns framing the front Covered Porch. Stepping inside, you will find yourself in a long Foyer, leading all the way to the open floor plan ahead. The Great Room is sure to wow, sharing a vaulted ceiling decorated with timber beams with the Kitchen and showcasing a lovely view of the Outdoor Living/Grilling Porch, complete with an optional outdoor grill and fireplace. A large eat-at center island has a farm sink and dishwasher facing the Great Room's cozy fireplace, allowing for the gathering to continue throughout the evening. A butler's pantry leads from the Kitchen into the Dining Room, where the ceiling pattern continues.

This ceiling is also featured in the Outdoor Living/Grilling Porch, as well as the Master Suite, which directly accesses the outdoor space on the left side of Cross Creek Farms. Natural lighting through a bank of rear-facing windows provides gentle morning waking in your master bedroom, while the Master Bath features plenty of amenities, including his and her sinks flanking a free-standing tub, corner shower with two seats, and a huge walk-in closet with access to the Laundry Room! The adjoining hallway also allows for easy entries and exits from both garages, with a bench with hanging storage and half bath by the two-car garage. On the opposite side of Cross Creek Farms, you will find the rest of the bedrooms for a peaceful split bedroom design. Bedroom 4 is at the very rear of the home and features private access to the hall bath, as well as a walk-in closet. Bedroom 3 is very spacious with another walk-in closet and lies adjacent to this hall bath. Walking into the private bath with dual vanities will take you into Bedroom 2, which is found at the front of the home and enjoys a beautiful vaulted ceiling and view of the front porch. Need more space? Enjoy the Bonus Room upstairs that is available for any purpose you need! How would you customize this amazing house plan?
