Description

NDG B1059

A stunning addition to our Barna Log House Collection, The Livingston ensures your guests will always feel welcome, with double multi-pane windows flanking the front door and accentuating the gable dormers above. A classic front porch leads you into the open floor plan, where you are first met with stairs to the upper level. To your left, step into the large Living Room, where a stone fireplace adds warmth to the open space. At the rear of the plan, you will find lots of counterspace in the Kitchen, and a large center island offers plenty of room for meal prep. Enjoy the fruits of your labor in the Dining space, which has a great view of your backyard. The Laundry Room and a convenient half bath are found to the right, and adjacent is your luxurious Master Suite. The master bedroom has plenty of room for a king-size bed and all your knick knacks, while the

spacious walk-in closet will allow you and your partner to store all your wardrobe essentials. Toward the rear of The Livingston house plan, you will find your Master Bath, complete with a corner whirlpool tub, separate corner shower, and his and her sink vanities. Upstairs, the kids will love all the space they will have to themselves! Bedrooms 2 and 3 are both large in size and each contain two storage closets. Bedroom 2 features a spacious walk-in closet, which also opens into an additional attic space, and private access to the hall bath. This hall bath has a raised floor and a decently sized linen closet for even more storage space. How would you customize this amazing house plan?

NOTE: Barna plans are intended for log exterior walls. Converting these to 2X6 exterior walls requires modification and will be subject to additional modification cost. Contact one of our home plan specialists today to discuss modification requirements by emailing
