Description

NDG 156

A stunning addition to our Traditional House Collection, Country Club Drive has a split bedroom design with amenities galore! A classic brick exterior paired with an arched entry makes for a grand entry inside, where a brief Foyer beckons you into the huge Great Room, complete with a built-in media center and corner fireplace for the ultimate gathering space. A bank of windows line the rear wall, invites you to enjoy the view of the Covered Porch while sipping your morning coffee. To the right, you will step into the Kitchen/Breakfast Room combo, which enjoys plenty of natural lighting from rear-facing windows, and a breakfast bar allows for chats with the cook and casual snacking. The formal Dining Room is nearby, with elegant columns opening the space up to the Foyer.

Just off the Breakfast Room, you will find a foyer style entry into the huge Master Suite of Country Club Drive. The master bedroom is enhanced by a beautiful boxed ceiling, front- and side-facing windows, and private access to the Covered Porch. The Master Bath is nothing short of luxury and features a double vanity with a makeup station, whirlpool tub surrounded by his and her walk-in closets, and a separate shower. To the right of the Kitchen, the spacious Laundry Room makes chore day easy and directly accesses a large space that could be used as a home office, hobby room, or exercise room. On the opposite side of Country Club Drive are three additional bedrooms. Bedroom 2 is found immediately to the left of the Foyer and boasts a large closet and plenty of natural light from a bank of front-facing windows. With a double French door entry and optional built-ins, this space would be perfect for a study, if needed. Bedrooms 3 and 4 are found at the front and rear of the home, respectively, and share a hall bath in between. Slightly larger than Bedroom 3, Bedroom 4 also houses a built-in desk and a walk-in closet, perfect for the teenager in your life! How would you customize this amazing house plan?
