Description

Plan Description

This new farmhouse plan from award winning designer Michael E. Nelson gives you just under 4,000 square feet of living space with a whopping 6 bedrooms, 4 full baths and 1 half bath. Unlike a traditional farmhouse, this house plan gives you a 3 car garage to house your mechanical steeds. The outside of this home is gorgeous with traditional board and batten style siding. This house plan gives you a wonderful wrap around covered porch on the front of the home and a large wraparound grilling porch on the rear of the home. On the inside of this plan you will find a large guest room on the first floor and a master suite that is in its own wing. The rest of the bedrooms in the plan are located on the second floor.
