Description

Plan Description

Oh, how I love a good farmhouse plan! And this one is so pretty, too! This sweet little farmhouse plan gives you 2,000 square feet of living space with 3 bedrooms and 2.5 bathrooms and features a 2 car Garage. Like any good farmhouse plan, this one faces you with a large Covered Front Porch to give some great curb appeal. On the inside of this lovely house plan there is an open floor plan that gives you a large great room and a country style kitchen that has all the space you would need.

Wide Open Spaces

As you enter the home, you find yourself in the Foyer that features high 10-foot ceilings. This gives

the home a such a nice airy feeling. To the left of the Foyer is the formal Dining Room. This room also has the high 10-foot ceilings and is open to both the foyer and the Great Room.

Plenty of Space for the Kiddos

To the right of the Foyer is the Guest Room/ Bedroom 3 / Study Area. This spacious room features the high ceiling as well as a large picture window facing the front of the home. This Bedroom has a large walk-in closet. This Bedroom connects to Bedroom 2 through their connecting jack and jill bathroom. Bedroom 2 also has a large walk-in closet and two windows facing the side of the home.

Open Floor Plan

The Great Room features faux beams in the vaulted ceiling and a large brickwork fireplace. It also has 2 large entrances to the Grilling Porch on the rear of the home. The Great Room is part of an open floor plan that includes the Kitchen and Breakfast Room. This allows the styling from the Great Room to flow seamlessly to the Kitchen and Breakfast Room.

The Kitchen features a large bar with seating for 6 for those busy mornings with the kids. The Kitchen also features an entrance to a very large Pantry with built in shelves. The Breakfast Room features a large picture window that looks out on to the rear of the home. Moving further into the home you will find a large Laundry room. This has space for your appliances and for a large soaking sink for those tough stains.

Gorgeous Master Suite

The Master Suite finishes out the first floor of this home. The Master Bedroom features 10-foot boxed ceilings and two windows facing the rear of the home. There is also a private entrance to the Covered Walk moving out to the Grilling Porch with its optional fireplace and vaulted ceilings.

The Master Bathroom gives you both a freestanding tub and a corner glass shower. The freestanding tub is a staple in Farmhouse Style house plans and lends an old-world air to the room. The Master Bathroom also features a large walk-in closet to help store and sort all of your clothing.
