### Description

## NDG 526B

A stunning addition to our Country Home House Collection, Olive Street showcases a master suite so elegant it demands its own wing. You'll have a tough time deciding where to entertain with two impressive covered porches and a delightful great room offering the comfort of a cozy fireplace. The foyer opens to the dining room with an elegant 11-foot boxed ceiling and an optional study with bookshelves. The master suite features a nine-foot boxed ceiling and includes a bathroom with two walk-in closets flanking a whirlpool tub. The other bedrooms can be found on the opposite side of the home, offering privacy for all. A bonus room and bath are available upstairs for future needs, and a 2-car garage (which may be side load or front load) offers you all the space you could ask for. How would you customize this amazing house plan?
