Description

Enjoy the view from the covered porch and deck featured on this rustic Nelson Design Group home. Entry from either side of the covered porch will take you and your guests into the stunning, open dining room. Only the pass through fireplace separates the dining room from the generous great room. Your private master suite is also located on the main floor of this home. Once upstairs, you'll be able to appreciate the view from the loft on your way to the built-in computer center. Two additional bedrooms and a full bath occupy the rest of the upper floor; perfect for overnight guests or the kids.

Please note: Choosing the basement option will remove the half bath.
