Description

The mix of materials of this rustic home, including brick, stone, and shake siding, give it massive curb appeal. With timber columns on stone bases, the covered front porch invites you in through its arched entry. From the foyer, with its 11' ceiling, a sight is truly to be held by the dining room on the left being open to the kitchen and Great Room. The kitchen features a large eat-at island bar while the Great Room offers plenty of space, a fireplace, and access to the rear grilling porch. Around the corner from the kitchen is the grand Master Suite. Also having access to the grilling porch, the bedroom has tons of space, with double vanities in the bathroom, a large corner shower, a whirlpool tub, and a huge walk-in closet. And down the hall is the spacious laundry room with convenient desk space. On the other side of the house are 2 more bedrooms with large walk-in closets and a Jack and Jill bathroom. On the left side of the house is the large 2-car garage and a separate single car garage as well.
