Description

Urban House Plan

Are you looking for the best urban house plan to enjoy your modern life? Well, your search is over. Nelson Design Group, LLC has the right urban house plan for you.

This modern home incorporates vaulted ceilings and an open floor plan. Also referred to as Art Deco, it uses geometrical elements and simple design to achieve an elegant look. With this house, you won't have to worry about going out of style — it's not only timeless, but also made to last.

Urban Living at Its Best

Sleek, sophisticated and filled with elegance, this urban home is perfect for a contemporary family. With its narrow and surprisingly conservative footprint, the plan fits neatly into a small city lot. It boasts 1,120 square feet of living space with two bedrooms and two full bathrooms.

Designed for 21st-century living, the interior has flexible spaces that are neither formal nor awkward, but simply open and comfortable. The covered front porch invites you into the graceful rooms inside — the great room right in front and the master suite to the right. Further ahead, you will walk straight into the dining room, which lets out into the spacious kitchen.

This well-organized house with its high ceiling takes in ample light via the tall glass windows throughout the four walls of the home. Gatherings small or large may spill out into the grilling porch, where the serene atmosphere facilitates an al fresco setting. A swing or a rocking chair would make a perfect addition to the porches.

Enjoy the comfort of the spacious master suite which features a large walk-in closet, walk-in shower, and a tub. The secondary bedroom with its own full bath is on the adjacent side of the master bedroom. It features a walk-in closet and a walk-in shower. The urban home plan also has a slab/crawl wall foundation.
