Description

NDG 136

A stunning addition to our French Country House Collection, Spruce Street implements a French traditional design for an astonishing exterior. Walk through the brick arched entry and discover an equally impressive interior design. The openness of the great room will prove to be the heart of the home, and a cozy fireplace with built-ins produces a homey feel as you gather with family. While a formal dining room offers an outlet for all your fancy meal desires, a breakfast room and an office desk open to the kitchen provide endless opportunities for quality family time. Conveniently, this space is also home to both sets of stairs, leading to the lower and upper levels.

At the rear of the Spruce Street house plan, you will find the laundry room, which lies adjacent to the Master Suite. The master bedroom is accentuated by a 10-foot boxed ceiling and even enjoys

private access to the covered rear deck. Step into a the spacious master bath, and you will be met with a level of luxury and comfort that will not disappoint! A corner whirlpool tub situated in between his and her vanities will have you relaxing the day away, and a separate shower allows for simultaneous bathing. His and her walk-in closets nestled in opposite corners will give you all the storage space your heart desires.

The right side of Spruce Street holds Bedrooms 2 and 3 with a bathroom in between. Bedroom 3 is located adjacent to the foyer and may also be used as a study if you so choose. The basement holds luxuries of a game room and media room, in addition to a full bathroom, and you can even add a wet bar! The kids will love the upstairs option, as it is perfect for a playroom, complete with a convenient half bath. Outdoor living space is in no way lacking at Spruce Street with a deck on the main level featuring stairs that lead down to the covered patio outside the basement.
