Description

Beautiful quoin corners and arches accent the exterior of this sprawling Nelson Design Group home. Once inside, you'll find all the amenities you could ever want. At the heart of this design is the large great room which houses a corner fireplace and media center. This kitchen was designed with the chef in mind. An island and a bar with seating are just a few of the luxuries found in the kitchen, not to mention the proximity to the breakfast and dining rooms. For that "Mr. Fix-It" in your family, a large shop area is available in one of the two garages. Enjoy views from the balconies upstairs before checking on the kids or guests in the three additional bedrooms. The kids are sure to love the reading nook and computer center almost as much as the home theater/game room, all included on the upper floor of this magnificent home.
