Description

NDG 1283

A stunning addition to our Affordable House Collection, Phillip offers an element of rustic charm, with board & batten siding paired with classic wood shutters. Inside this beautiful home is an excellently designed family area at its heart. The Great Room's corner fireplace is sure to have the whole family gathering, and an opening over the eat-at bar makes this space one with the Kitchen. The Dining Room is also open to these spaces, and cozy bay windows give elements of natural lighting and charm to your meals. The Breakfast Room features a computer desk, perfect for family interaction while working. Both the Breakfast Room and Great Room have access to the rear covered grilling porch, allowing for quick in-and-out trips by the grill master of the house. Bedrooms 2 and 3 are found across the hall from the kitchen and share a nearby bathroom. The

Master Suite is found on the opposite side of Phillip, just down the hall from the laundry room, which also serves as an entryway from the 2-car garage, making it the perfect space for a mudroom. The spacious master bedroom sits below a 9-foot boxed ceiling. Th Master Bath is really something, with a centered whirlpool tub flanked by his and her walk-in closets, a separate shower, and dual vanities. A Bonus Room is located over the garage with a sloped ceiling, offering lots of possibilities for the family. How would you customize this amazing house plan?
