Description

NDG 1335

A stunning addition to our Arts and Crafts House Collection, The Northridge is loaded with character inside and out, from the decorative woodwork in the gables to the classic brick exterior and wood shutters. Inside, you will be in awe by the 10-foot ceilings throughout and the 8? columns separating the Foyer from the Dining Room. Ahead, the open floor plan continues into the Great Room and Kitchen/Breakfast Room combination, where an angled peninsula bar will prove perfect for entertaining and quick meals. Gather around the fire with family in either the Great Room or Grilling Porch, or retreat into relaxation in the Master Suite, which features yet another fireplace. Moving toward the front of The Northridge house plan, you will love the Master Bath! A large corner whirlpool tub with a separate shower allows for functionality and luxury to work

together, and a makeup station nestled in between his and her vanities is the perfect addition. On the right side of the home, Bedrooms 2 and 3 vary in size but each have walk-in closets. Bedroom 4, located at the front of the home, is the largest of the bedrooms and has a pair of closets. The hall bath, complete with a dual sink vanity is found in between Bedrooms 3 and 4. There's also a Bonus Room over the 2-car garage providing many different options. How would you customize this amazing house plan?
