Description

MEN 5028

From award-winning designer Michael E. Nelson comes a stunning addition to our Mountain House Collection. With a breathtaking porte-cochere separating the home from the side-by-side 2-car garages, Cumberland Ridge has wonderful curb appeal and welcomes family and friends in with its beautiful front porch. The stunning design elements of this home don't stop at the exterior, though. A great open floor plan is noticeable from the foyer, as a massive great room with a stunning fireplace flanked by built-ins shares a space with the kitchen. This luxury kitchen features an angled bar, a center island, and a walk-in pantry.

The right side of Cumberland Ridge holds the master suite, where a huge bedroom enjoys a fireplace and private access to the expansive outdoor living space. The master bath is a luxury

itself, with spacious his and her walk-in closets, a free-standing tub, and a glass shower. Bedroom 2 enjoys a private bathroom but may easily be used as a home office. This home also features a guest room with private quarters, and the upper level holds two extra bedrooms and bathrooms. A balcony overlooks both the foyer and great room, and an impressive bonus room is more than suitable for a game room or home theater. There is also a dog room for the furry friend in your life! How would you customize this amazing house plan?
