Description

Charming rustic design is perfectly captured in this house plan. The identical 8 foot covered porches in the front and rear of the home give plenty of out door living space to enjoy warm summer evenings. A semi open floor plan inside allows the great room and dining room flow together while the kitchen has a space of its own connected to the dining room. The master suite is complete with a spacious bedroom, large closet and bathroom with a double vanity. Upstairs the sleeping loft over looks the great room below while 2 bedrooms and a bath are located on the right.
