Description

MEN 5040

From award-winning designer Michael E. Nelson comes a stunning addition to our Traditional House Collection. Austin Place showcases a classic brick exterior paired with a French traditional roofline for a charming curb appeal. Step inside this beautiful home, and the Foyer leads you to the massive Great Room with a cozy fireplace. While a stunning vaulted ceiling makes this space its own, the open floor plan joins the space into the Kitchen and Dining area, perfect for family get-togethers. The Kitchen features a large eat-at center island, as well as plenty of counter and storage space, with a modest walk-in pantry and separate closet. On nice days, move the entertaining space to the spacious Screened Porch, which has plenty of room for whatever your heart desires.

Accessible from this space is also the Master Suite, tucked away by itself on the left of Austin Place. A 10-foot boxed ceiling adds luxury to the master bedroom, and the Master Bath has all the amenities, including a corner whirlpool tub and separate glass shower, a dual sink vanity with a makeup station, and a huge walk-in closet with designated space for your favorite shoes! Located on the opposite side of the home, both Bedrooms 2 and 3 have large closets perfect for all the kids' toys or all the teenagers' clothes. A full hall bath is shared between the two, and the upstairs Bonus Room makes for a perfect place for the kids to hang out while the adults visit downstairs. How would you customize this amazing house plan?
